To,
Bombora

Dear Hiring Manager,

I would like to express my interest in the Data Science Intern (2022) position. I am currently pursuing an MS in Computer Science from Stevens Institute of Technology. I am actively seeking opportunities to gain lots of real-world experience. I am ambitious, career-focused with strong analytical problem solving skills. I'm a dedicated and hardworking person.

I have developed skill in Python, Big data technologies like Hadoop, Mapreduce, pyspark, databricks as well as have knowledge on Numpy, Pandas, Machine Learning Algorithms, Computer Vision, Natural Language Processing (NLP), SQL, Data Structures and Algorithms and MongoDB. I am currently a NLP Data Scientist intern at Orcawise where I perform data annotation and work on contextual understanding of natural language. I have done an internship as data analyst and visualization intern, where I extracted data from various websites and performed various operations to get deep insights about the data. Additionally, I have internship level experience as a web developer.

I am a good team player who possesses good communication skills and has the ability to manage multiple tasks while maintaining the quality of work at hand. I have a strong ability to identify problem situations, analyze them and provide an efficient solution.

 I would greatly appreciate your review of my enclosed resume and outlined credentials. At your convenience, I am available for an interview or further discussion. Looking forward to your response.

Sincerely,
Krina Uday Shah
